*Lecture is a class during which information about a particular subject is conveyed. Students are engaged in one single activity moderated by the instructor(s) throughout most of the meeting time.

†Lab is a smaller, individual course component that supplements larger lecture classes and allows for hands-on, practical exposure to subject matter. Students are engaged in individual, or group activities supervised by the instructor(s) throughout most of the meeting time.

††Online courses are ones in which all instructional content can be completed remotely. Students may have some non-instructional in-person requirements.
